Profile

Frontend-focused Senior Software Development Engineer with 6+ years of experience building high-performance, scalable web applications using TypeScript, React/Next.js and headless WordPress. Proven track record delivering measurable impact—35% faster page loads, 25% reduction in bounce rate, and 35–40% growth in organic traffic/search rankings—across SaaS, real estate, healthcare, ed-tech, and e-commerce products. Strong collaborator focused on accessibility, SEO and optimizing Core Web Vitals to improve user engagement and conversion.

Professional Experience

Senior SDE - Web, SaaS Labs, Bengaluru

Apr 2024 to Present

- Developed and maintained Next.js-based web applications integrated with headless CMS architectures (primarily WordPress), improving scalability and content flexibility.
- Worked on CMS architecture and content modeling, designing reusable schemas and modular components to support dynamic marketing pages.
- Gained exposure to HubSpot CMS and integrations, including understanding migration patterns from traditional CMS to headless architectures.
- Collaborated with design and backend teams to implement scalable UI components, improve UX, and ensure accessibility compliance.
- Optimized website performance for Core Web Vitals, SEO, and responsiveness, achieving 35% faster load times, and 25% reduction in bounce rate.

Technologies Used: Next.js, Headless WordPress, CMS Architecture, Core Web Vitals

SDE 2 - Web, SaaS Labs, Bengaluru

Jun 2022 to Mar 2024

- Built and maintained high-performance marketing websites leveraging WordPress and modern frontend frameworks like React.js.
- Implemented SEO best practices and structured data, improving search rankings by 40% and increasing organic traffic by 35% within 6 months.
- Ensured cross-browser compatibility and accessibility compliance, and streamlined deployment workflows for faster delivery.

Technologies Used: Next.js, WordPress, Tailwind CSS

Web Developer, Social Beat, Bengaluru

Mar 2020 to May 2022

- Developed and maintained high-performance, scalable, and user-friendly websites and landing pages for multiple brands, adhering to their brand guidelines.
- Translated designs and wireframes into high-quality, responsive code, ensuring maximum speed and usability.
- Collaborated with marketing and UI/UX teams to optimize websites and improve user experience.

Technologies Used: WordPress, UI/UX
